NEW COUNCIL MAKES  
APPOINTMENTS

Union Accountant, Gateway Editor and Initiation Supervisor Selected

Since assuming office on April 2nd, the Students' Council for 1927-28 has held several meetings and made many important appointments.  
George Field, Sci '28, was appointed Student Union Accountant for next session. There were seven applicants.  
Percy Davies, Law '27, was awarded the Directorship of the Handbook, which will be published about October 1st.  
Max Wershof, Arts '28, Law '30, was appointed Editor-in-Chief of The Gateway.  
Lee Cameron, Com. '28, was appointed business manager.  
Several Students' Court appointments were made: N. E. Alexander, Med. '29, D. H. Hansen, Sci. '28, and A. S. Galbraith, Arts '28, as Pledge Judges, and D. P. McDonald, Law '28, as Union Prosecutor.  
The most important appointments made by the Council was that of Lawrence Piper, Sci. '28, as Supervisor of Freshman Initiation. This new position was created by the Students' Union this year. The Supervisor will be responsible for the carrying out of initiation and will appoint a committee of Sophomores to assist him.

**GATEWAY'S COAL RESEARCH COMMITTEE**  
(1) Clarence Edward White.  
(2) W. E. Selnes and S. T. Fisher.

SIXTY POSITIONS  
YET TO BE FILLED

One Hundred and Eighty Student Officials Have Already Been Selected

Over 240 offices in campus activities will be held by students next year, according to a survey of student activities recently conducted by The Gateway.  
One hundred and eighty of these officials have already been selected, while approximately 60 remain to be chosen in the fall. As the following list shows, many students hold two or more positions at the same time, so the number of students holding office will not nearly approach the number of offices.

## THE PARTING OF THE WAYS

Once at least in the history of every person there appears a ripple in the smooth current of life. All glide gently along scarcely thinking of their advancement, until they reach a point where they must either launch out into the ocean of life or be wrecked by the breakers along the shore.

"There is a tide in the affairs of men,  
Which taken at the flood, leads on to fortune,  
Omitted, all the voyage of their life  
Is bound in shallows or in miseries."

The members of Class '27 have partaken of the trials and joys of university life. Their minds have been enriched by the wealth of knowledge showered upon them and the University has been enriched by the contributions they have made to its life and future. The academic work has broadened the capacity for knowledge, and together with the formation of firm friendships, has laid the foundation for the study of the problems which life presents to every graduate on the threshold of his chosen work.

A profession may open to some whose lives will be spent in uplifting and benefitting the human family, while others will fill but a little niche of the room of the world, and will perform the simple, humdrum duties through life. But the work of both must be done and one character is as pleasing as the other.

The success which has been gained already by this graduating class is not entirely due to individual effort, but in a great part to the thought and kindness of others. This is what makes the parting such sweet sorrow.

As all great endings come from small beginnings so the comparatively few difficulties that Class '27 has had to overcome are but a preparation for the sterner duties of life. And the many joys of this University sojourn will ever linger in memory as bright flowers by the pathway of life helping all to endure whatever trouble is placed in the way.

"Let fate do her worst there are relics of joy,  
Bright dreams of the past, which she cannot destroy.

Like a vase in which roses have once been distilled,  
You may break, you may shatter the vase if you will,  
But the scent of the roses will hang round it still."

## THE RETIRING STAFF

No student activity makes more exacting demands upon time and energy and brings less formal recognition than the work in connection with the publication of The Gateway. Week by week the Chief's hard-working staff has given many hours unselfishly that "the sheet" might appear on time. The work has proceeded smoothly through the growth of a very notable "esprit de corps".

To these generous students the Editor offers his most sincere thanks.

To the comparatively small but faithful reporter staff, who have worked silently and efficiently for the last seven months, he is particularly grateful. Theirs has been the least praise of all, and their work has been deserving of more than he can give them.

Of the official staff several members are retiring from active participation this Spring. Martin Johnstone, who has directed the business of the paper for the last year, is leaving the staff. Tom Askin, the Sports Editor, Joe Harris, the Literary Editor, Ray Klinck, the News Editor, Molly Grant, the Women's Editor, and Win Gilhooly, the Exchange Editor, are concluding long periods of splendid service to The Gateway. To these men and women who were the Editor's closest associates in the year's work, he feels a very deep sense of gratitude. He has enjoyed his work with them, and regrets that it must come to an end. To each he gives his most sincere thanks.

Some of the members of last year's staff are returning to duties on The Gateway. The Editor appreciates their services of the past year, and looks forward to a successful paper next term under their guidance and direction.

## RESEARCH COMPETITION

The Gateway's Research competition on the Development of the Coal Industry in Alberta is concluded. The judges, Dr. D. A. MacGibbon, Prof. N. C. Pitcher, Mr. R. J. Dinning, have made their awards.

C. E. White, Mining Engineering '27, is the fortunate competitor who receives the two hundred dollar prize offered by the Alberta Government. W. E. Selnes, Mining Engineering '27, and S. T. Fisher, Civil Engineering, will divide the second prize of one hundred dollars between them, their essays being adjudged of equal merit.

The Gateway wishes to congratulate the successful candidates, and wishes also to congratulate the other competitors, who were not quite so fortunate, but whose essays are worthy of a great deal of commendation.

The Board of Judges—Dr. D. A. MacGibbon, Prof. N. C. Pitcher and Mr. R. J. Dinning—by their keen interest made it possible for a thorough analysis to be made of the essays submitted for adjudication. The Gateway greatly appreciates the work of these judges, and also the interest manifested in the competition by His Honour Lieutenant-Governor Egbert, J. B. Starky and E. A. McBean, who contributed generously towards the second prize.

## INTERCOLLEGIATE RUGBY

The first Western Canada Intercollegiate Rugby championship is the definite aim of the U. of A. rugby club this year. Under the able management of their president, "Happy" Hansen, the executive is sparing no pains to make the 1927 season the greatest

in the history of the sport at Alberta. The championship is their aim, and there seems to be no reason why they should not attain it.

Alberta and Saskatchewan will open the schedule in Edmonton on October 8th. Saskatchewan will next entertain Manitoba on October 15, and then play the return game at Winnipeg on October 22. Alberta's second game will be played in Edmonton on October 29, when Manitoba will endeavour to defeat the Albertans on their own grid—a feat which no university team has ever accomplished. The game on the 29th should be a game, both teams at the top of their form playing on the finest field in Western Canada.

Alberta will travel to Saskatchewan on Nov. 5 for their first game away from home. Then they will go to Winnipeg to play the final game of the schedule on Thanksgiving Day, Nov. 7.

The rugby clubs of Manitoba and Saskatchewan are confident of fielding strong teams. "Happy" Hansen, our own rugby boss, assures Alberta supporters that our team will be stronger than ever. The team will go into hard training on Sept. 26, the date set for the squad to return to Edmonton. Each member will have completed his conditioning before that date.

Despite the fact that a few of the stalwart stars of last year's team may be absent, there will be no dearth of first-class material—Agnew, Laverty, Gourlay, Galbraith, Siebert, Runge and Williams provide the nucleus for the strongest line in the west. Gourlay and Galbraith, newcomers last year, proved their worth against Victoria and Regina last fall.

D. P. McDonald and Ken MacKenzie will again be available for the end positions, although Drayton Walker will be missed.

A heady, fleet and experienced half-line can readily be selected from Lewis, Hill, O'Brien, Pullishy, Ian Macdonald and Hess. Hess and O'Brien can be relied upon to defeat any aerial attack which the opposition can provide, and it will be only a most exceptional kicker who will threaten Alberta's supremacy in the punting game.

Gowda, of last year's team, and Woods, who distinguished himself as a team leader two years ago, are both available for the quarterback's position.

There is every reason to expect that the team which represents the university next year will be the strongest in its history. It deserves the loyal support of the student body and with that essential factor assured one may readily expect to see the Western Canada trophy in comfortable repose within the security of the new trophy window.

## COLUMBIA'S LITERARY WORK

Since 1924, the Columbia University has published annually under the title "Copy", a collection of stories, articles, poems and plays originally written as class exercises by students in university writing courses, but afterward accepted for publication by various editors and publishers. The purpose of "Copy" is to demonstrate the fact that work is being done in these writing courses that not only gains the approval of the instructors, but can satisfy the editors and gain an audience of readers.

"Copy 1927" contains an interesting variety of reading matter, drawn from some twenty-four different periodicals and publications, most of which are well-known American magazines. The proportion of poetry as against prose is rather slim, and in quality is not such as would command unqualified praise. The poems embody some pretty fancies, but beyond that little can be said for them. The stories are rather good on the whole, and doubtless each can be allowed to have the merit of having satisfied the type of readers for which it was designed. Some of them we found ourselves unable to read through, but taste and distaste are matters of individual idiosyncrasy, and what we might cry down others would cry up.

Amongst the articles the one that especially held our attention was an exceedingly interesting and informative essay that appears in The Outlook from the pen of F. B. Lenz under the title, "China's Fight Against Illiteracy." But perhaps the best thing in the book is the one-act play by Eleanor A. Barnes, entitled "Close to the Wind." In our estimation it is of much greater merit than the other play in the same volume. The dialogue between two children makes up the bulk of the play, and it is well described as "really a remarkable bit of unforced naturalistic pathos" with which has been mingled a strain of delightfully quaint unconscious child humour.

Columbia is to be congratulated on this year's "Copy," and it may well be hoped that this annual volume may encourage and stimulate all who teach English in our universities with the hope of inspiring creative writing. When they grow weary in well doing they may find renewal of strength in a glance at some of the good things in "Copy".

To put our own comparatively humble literary supplement besides this ambitious product of an Eastern university might appear unwise as making The Gateway Literary Supplement suffer in the comparison. But this at least may be said. Such an outlet for literary expression puts us as a university in the way that leads to the bigger things of later years while also affording our undergraduates at the present time an incentive and an opportunity for writing that may put some of them too upon the pathway that will lead to greater things in literary production.

## WELCOME CLASS TWENTY-SEVEN

Fifteen years ago, the first graduating class which had taken all four years' work at the University of Alberta, completed its work. Judged by the test of years alone, our Alma Mater has a brief history. Our traditions, lack the hoary antiquity which halows those of older seats of learning. As yet we cannot claim any great historic figures among our alumni. These are things which time and time alone, other things being equal, can bring to pass.

However, brief though our history may be, judged in terms of mere years, by other standards it is notable. Brief though our traditions are, they are none the less worthy. Though halls of fame as yet contain no paintings or statues of our alumni, our Alma Mater none the less boasts many worthy sons and daughters. Scattered over all the earth as missionaries in China, India and other far lands, as scientists and teachers in institutions of learning at home and abroad, as engineers helping in a material way to achieve man's conquest of nature, as agriculturists seeking to ensure that nature's tribute in food for man and beast may not prove inadequate, as home-makers, business and professional men and women

## STUDENTS' UNION REPORT

May, 1927.

In reporting the activities and accomplishments on the various organizations with regard to these activities during the term 1926-1927, it is not my intention to deal with them in detail, but rather to mention briefly upon their work during the year.

## THE STUDENTS' UNION

Meetings of the Union have been more frequent this year, averaging one a month during the term. It is more apparent this year than ever that the Union is very much more than a mere social club. It is a body which is concerned with the welfare of the student body as a whole. It is a body which is interested in the welfare of the student body as a whole. It is a body which is interested in the welfare of the student body as a whole.

1. Should the Council which is the executive be reduced in number, or  
2. Should it be enlarged and made to form by election the Representative Council?

It is a well known fact that the majority of students are interested in but one phase of student activities, and that is how much work and time their Council members must put in to carry on the business of the Union in its administrative capacity. The Students' Council met this year weekly.

The Union upheld the Covered Rink Project and abolished initiation, only at a later meeting to reopen the question by the acceptance of another form of initiation. This is in no sense a forward movement, which relates not only the Freshmen and Sophomores to the class of high-school seniors but reflects glory on the whole student body and on the University.

## STUDENTS' COURT

Under the leadership of Chief Justice R. D. Henderson, the Students' Court has dealt with a comparatively large number of cases with impartiality and justice. A great deal of credit is due to Messrs. Hansen, Crawford, Brunsden, Puisse Judges, and to Mr. J. Johnston, Crown Prosecutor.

The Constitution of the Students' Court has been amended this year so that three judges instead of two are appointed by the Council. This overhauls the equity experienced in the past of obtaining a sitting of the Court. The third puisne judge appointed this year was Mr. W. Brunsden, chairman of the House Committee, and, in my opinion, the Court would be considerably strengthened if the chairman of the House Committee were constantly appointed as a puisne judge.

The Constitution of the Students' Court, in my opinion, needs no radical amendment so long as the members are of the calibre of those of this year. The Council next year will have the power to make rules which will be enforced as if they were enacted in the Students' Code. This should remedy some of the procedural difficulties of the Students' Court, but it is a power that the Council should use with a great deal of caution.

## LITERARY ASSOCIATION

The success or failure of the Literary Association is determined by the records of The Debating Society.

The Debating Society this year is to be congratulated upon their new innovation. This is a true endeavour to interest all the students in public speaking. The Inter-University Debates were very successful although the University of Alberta did not win the McGoun Cup.

Although the debate with the overseas group was not such an outstanding event as the first imperial debate, yet on the whole, the Society is to be congratulated, and particularly Mr. E. W. Brunsden.

The Drama Society, under the leadership of Mr. S. J. MacDonald, President of the Drama Society, reports that in comparison with former years the Drama Society has done excellent work this year, both as regards the quality of its productions and its financial success. In my opinion, a great deal of this success is to be attributed to Mr. MacDonald himself.

The Orchestra and Glee Club in conjunction with the other clubs in the Association produced the opera "Maritana." This new dramatic university activity is highly commendable, and is an indication of what united effort among the clubs of the Literary Association is capable of doing. In particular with regard to the Orchestra, I wish to mention the invaluable assistance of Mrs. J. B. Carmichael, conductor of the orchestra, and Mr. J. D. Adams, President of the Literary Association and first executive.

The radio orchestra, under the leadership of Mrs. J. B. Carmichael, has been working in conjunction with the University broadcasting station, and thus the activities of the orchestra have not really been confined this year to the University itself.

## ATHLETIC ASSOCIATION

The annual Inter-University Track Meet was held at Saskatoon last fall, and an excellent showing was made by the Alberta athletes. Mr. Aubrey Bright in particular bringing many honours to the University of Alberta.

The Annual Field Day is now developing into a University tradition, and one of the traditions which should be carefully fostered. The President of the Track Club, however, reports that the grid is in very poor condition for the Inter-Varsity meet which will be held here next fall, and the cost of putting it into proper shape will be considerable.

The University of Alberta players were the provincial champions this year, and also defeated the Victoria team at Vancouver, but lost the Western Canada championship to Regina. This year shows the progress of the Rugby Club or any other club exceeding its budget for the purpose of annexing the championship. Circumstances this year were such that no harm resulted to other branches of the Union, but this will not always be so. If a club cannot keep within its budget it should not travel.

The Western Canada Inter-Collegiate Rugby Union of the three western universities will be in operation for the first time next fall, and of course, it is too early yet to pass judgment upon this. The singular apathy of the student body as a whole which was the lack of interest in the game by the students' Union meeting to decide this question, we hope will not extend to the games played under this union.

Tennis is not a sport feasible for Inter-University competition and should be confined strictly to inter-faculty competition or local meets. The tennis tournament this year held by the Universities of Saskatchewan, Alberta and British Columbia here, was very expensive, and was not worth the high expenditure necessary to carry it through.

Basketball. This year's experience, basketball seems to be losing the support it formerly

as well as in legislative halls, they are to be found. We have no reason to apologize for the part they are playing.

But the proudest and saddest record of all is that which we recall each year when on November eleventh we gather in Convocation Hall and remember those who did not count the cost, but gave all they had even to life itself so that, as they believed, freedom might not perish from the earth. Truly their name liveth for evermore.

Remembering these things, who will say our traditions are lacking in hallowedness or that our records should not thrill us. We can say, to paraphrase a famous remark, we are graduates of no mean Alma Mater. It is to our fellowship and brotherhood we welcome the graduates of the class of 1927. Of all

had from the student body as a whole. However, it is a sport indulged in by a large number of students and should be encouraged and supported by the Union as an inter-faculty or house league competition.

Hockey. Hockey is the most popular sport carried on under the auspices of the Men's Athletic Association. The University of Alberta has annexed the Duggan Cup, and a bright future is in store for the Hockey Club once the Covered Rink becomes a reality.

Swimming Club. A popular sport as evidenced by the annual tournament, but one which is greatly handicapped by our conditions here. Not until we are as fortunate as the Universities of Toronto and Saskatchewan in having a swimming tank, as part of the athletic equipment of the University, will this sport attain the prominence that it has in these other institutions.

Soccer and Baseball. These two sports are indulged in very little, soccer due to the prominence of rugby, and baseball due to the shortness of the season and the proximity of final examinations.

## WOMEN'S ATHLETICS

Basketball continues to be the most popular sport among the women. Basketball is the only club that should be allowed to travel for the purpose of inter-university competition.

A number of the women are interested in the University until teams are built up which can properly represent the University. The expenses of the hockey trip this year were necessarily high and very much out of proportion to the results obtained from other forms of inter-university competition.

As a last word with regard to athletics, the W.C.I.A.U. has taken the matter of scholastic standing under consideration and uniform rulings on this matter will be enforced in the three western universities next year. A high scholastic standing requirement should be maintained. It very seriously cripples any sport, and is conducive to having players representing the University not only athletes, but scholars.

The Wauneta Society reports a most successful year. Their functions are mostly social, but they have this year through the medium of social entertainments been able to bring all the women students together in a spirit of friendliness and good fellowship.

## THE GATEWAY

The Editor of The Gateway, Mr. John C. Marshall, reports as follows:  
During the term The Gateway published 20 regular issues—one 16-page issue, one 10-page issue, one 8-page issue, one 4-page issue, and sixteen 6-page issues.

In addition to the regular issues, The Gateway published a Rugby extra, a Literary Supplement and a Convocation issue.

Recommendations.  
1. That the Gateway endeavour to expand its Correspondence Debate into one of an international character, the University of Alberta being a possible opponent.  
2. That there should be an amalgamation of The Gateway and The Trail, as it is believed that this would be in the best interests of all parties concerned.

3. That the term of office of the Editor-in-Chief should be for the academic rather than the calendar year.

## THE EVERGREEN AND GOLD

The Year Book is truly "bigger and better than ever" this year, and the staff are to be congratulated on the high standard they have set. This year's experience shows more clearly than ever that the preparation for the publication of this Year Book should be done earlier in the term, so that the book would be available to the students before the end of examinations.

This year the Year Book staff had the advantage of the photo studio in the Department of Extension. As this was the first year that this has been tried, one cannot say whether or not this service is beneficial to the Year Book. My own opinion is that with this year's experience this studio would be of tremendous value to the Year Book and also to The Gateway.

Best of all, the Year Book staff of Evergreen and Gold, recommends as follows:  
Recommendations.  
1. That the Evergreen and Gold staff be assembled as early in the session as possible.  
2. That the Senior Class attempt to have lists of class members completed early in December.

3. That the sale price of Evergreen and Gold be set at, possibly, two dollars and seventy-five cents.  
4. That as the Annual is to such an extent a book of pictures, greater care should be exercised in securing uniform and excellent photographs.

## STUDENTS' UNION ACCOUNTANT

The Students' Union this year was very fortunate in securing the services of Mr. Percy Davies, a former director of the Year Book and a former Treasurer and President of the Union.

The books of the Union this year constitute a permanent record for the Students' Union Accountant and Councils of the future. The check on equipment and gate receipts has been most satisfactory and efficient, and the experience throughout the year has certainly proven the value of this position as was foreseen by Mr. Mark Levey in 1923.

## THE HOUSE COMMITTEE

The House Committee has reported its progress to Dr. MacEachran and the Board of Governors, and in so far as this committee comes in contact with the Students' Union there has been the most friendly relationship.

The House Committee and the Students' Court have this year worked in co-ordination, and the standard of discipline in the residences has been most high. The sincere thanks of the residence students are due to Messrs. Brunsden, Gale, Cuckle and Dunn and to Miss N. Holmes and Miss Daisy Kellam.

## FACULTY CLUBS

Faculty clubs which are more specialized organizations, have this year been noteworthy for progress in their individual lines of endeavour.

This year has seen the formation of a new faculty club, namely, the Theology Club.

Med Nite, unfortunate for the instance which preceded it, is a problem still before the executives in years to come.

With regard to Faculty Clubs, I think it would be most advisable if these clubs, instead of having individual bank accounts

with no continuity of office holders, would place their finances under the Students' Union so that all purchases and expenditures of all kinds would be under the supervision and check, not only of the Students' Union Accountant, but of the Bursar's office. This would not mean that the Council would be exercising financial control over Faculty Clubs.

## COMMITTEE ON STUDENT AFFAIRS

The faculty and the student representatives have always worked with the greatest harmony on this committee, and it is no less true of this year than in former years. One question, however, arises: Are the student members of this committee to express their own individual opinions as to the matters affecting the student body or are they merely there in a representative capacity? My opinion is that these student representatives on the Committee on Student Affairs are not there as mere rubber stamps of certain sections of student opinion. They are, in my opinion, men and women who are there as representative students to give the Council individual judgments and opinions on the questions in hand.

## STUDENTS' EMPLOYMENT BUREAU

This year saw the first appearance of this service. It is far from perfect, but in the future should become an important branch of Students' Union activities. Through the kindness of Mr. West and Miss Nairn, who are handling the Bureau this year, it has been possible to make this start, and it is hoped that the students will give it their fullest support, for unless they do so, employers will not.

## N.F.C.U.S.

The Students' Union of the University of Alberta is now a member of this newly-formed organization, namely, The National Federation of Canadian University Students, which came into being at a conference of representatives and delegates of various Canadian universities held at Montreal last Christmas. Mr. Percy Davies, at that meeting, was elected Secretary-Treasurer of this organization.

## SCHEDULE MAN

There were 276 meetings under the direction of this office. Mr. R. U. Harwood, who very capably filled this position this year, recommends:  
1. That all executives in charge of major functions be urged to select a suitable date, as early as possible in the year.

It might be feasible to allow two or three weeks at the beginning of the year in which to submit both a first and a second choice date. At the end of this time, a committee composed of the Provost, the President of the Union, and the Schedule Man could assign more definitely as many as possible of such functions, based, of course, on the stated choice of the executives.

2. It need not be urged that those in charge of such functions as the Oxford and Inter-Varsity Debates, should be beyond our control should advise the Schedule Man as soon as possible. This would reduce the clashes between such functions and our own.

E. B. WILSON,  
President.

the democracies, ancient and modern, no other offers so wide a freedom as that which opens before the university graduate. In all lands, under all skies, wherever men and women compare experiences there is no other bond so strong as citizenship in the common wealth of letters. And in a peculiar and special way this is true of the fellow graduates of the same university. Already the earlier graduates of Alberta feel this very strongly. You who join our ranks today will feel it with increasing strength as the years pass. We are proud to greet you as alumni, and feel sure that as you will never need be ashamed of our common intellectual foster-mother, so she will never need blush for you.

Lieut.-Gov. and Mrs. Egbert, Dr.  
and Mrs. Tory, Hon. A. C.  
and Mrs. Rutherford

**Entertain**

At 2 o'clock Monday afternoon, May 9th, Class '27 made their last pilgrimages through the various laboratories and university buildings.

After the class tree was ceremoniously planted in front of Athabasca residence. A delightful tea at Dr. Ruthven's completed the afternoon entertainments.

Monday evening saw the more energetic of the graduates at the South Side swimming pool. The evening was a success and gaiety was enjoyed. An informal dance at Athabasca Hall completed this day's strenuous but highly enjoyable series of events.

On Tuesday evening, Dr. and Mrs. Torrey held an informal party and dance at the home on the University campus, where, due to the excellent host and hostess not a dull moment was wasted. The guests who were present, with Dr. Hardy, honorary president of the class, Mrs. Hardy, Miss Dodd and Dean Royle.

Wednesday morning at 11 o'clock graduates gathered on the second floor of the Arts Building, where, under the capable direction of Dr. Sheldon and Dr. Campbell, the class meeting was held.

During the class meeting which followed, Dr. Hardy was presented with a gift from the class members.

In the afternoon, at Government House, Lieut.-Gov. and Mrs. Egbert entertained the students at a tea.

Following the meeting the Alumni Association will hold their annual banquet and dance while Friday, Convocation Day, is followed in the evening by Convocation dance, open to graduates, alumni and their friends.
